WORK EXPERIENCE

Full Stack Developer currently seeking new opportunities

EMPEROR TECH, Ibadan NG

DEC 2023 – PRESENT

- I lead full-stack web development projects from concept to delivery, utilizing a diverse skill set in both front-end and back-end development.
- I design and develop user interfaces for web applications using HTML, CSS, WordPress and JS ensuring cross-browser compatibility and responsiveness.
- I implement dynamic and interactive features using modern React.js JavaScript frameworks
- I develop server-side logic and database architecture using languages and frameworks such as Core PHP, Larevel and MongoDB.

Backend Web Developer

Rotosoft Technologies, Eruwa, NG

JAN 2021 – NOV 2023

- I developed and maintained server-side logic using Node.js, and PHP.
- I designed and implemented database schemas and queries for efficient data storage and retrieval.
- I created RESTful APIs to facilitate communication between frontend and backend systems.
- I collaborated with frontend developers to integrate backend functionality into user-facing interfaces

Frontend Web Developer

Techathom, Ibadan NG

OCT 2017 – DEC 2020

- Designed and developed user interfaces for web applications using HTML, CSS, and JavaScript, emphasizing intuitive design and smooth user experiences.
- Utilized React.js and Angular.js to create interactive and dynamic components, enhancing user engagement and satisfaction.
- Implemented responsive design principles for consistent viewing experiences across devices, prioritizing usability and accessibility.
- I make UI/UX design and collaborated closely with other designers and back-end developers to integrate front-end and back-end components effectively, ensuring alignment with design principles and functionality requirements.
